Custom made Roof for Restaurant on the beach

Case Study

The hotel wanted to cover their outside eating area to provide shade for their diners. The challenge they faced was that the structure had to withstand cyclones and constant sun.

Fabric : Ferrari 1202 T2®

Fabricator : Tension Structures

Solution : Ferrari 1202 T2® tensile structure material

The architect selected **Ferrari 1202 T2®** for the job as it is able to create a bright yet shady area where patrons can eat and drink in cool comfort. The cone shape designs compliment the design of the building and umbrellas' on the beach. The structure has poles in the centre of the umbrellas' with outriggers supporting the rest of the structure. This structure has already withstood many cyclones making it hugely successful.

Anti-capillarity treatment

Anti-Capillarity Treatment

The construction of the polyester fibres prevent moisture and dirt from running through the inner layers of the material. This ensures the clear transparency of the material so that dark patches do not form overtime

Won't sag

Tear resistance

Ultra Stable & Tear resistant

Ferrari 1202 T2® is a textile designed according to an exclusive and patented process which ensures that the textile will not lose its shape or its inherent physical strength despite the tensions generated by wind, rain, hail or other climatic conditions. For this reason, **Ferrari 1202 T2®** is preferred by architects and specifiers the world over for large exterior panels.

Precontraint

Manufactured using the exclusive patented Precontraint Ferrari technology, the **Ferrari 1202 T2®** textiles are maintained under tension throughout the entire production cycle. The resulting level of dimensional stability is extremely high, meaning the textiles do not deform during installation or over time.

Fire Retardant

Fire retardant **Ferrari 1202 T2®** is not inflammable and will only smoulder in the immediate presence of flames

Durability & Easy Maintenance

FLUOTOP T2® is a high concentration of a non-weldable formulation, available only in white colour. This special construction achieves the highest levels of UV resistance and preservation of original appearance. Maintenance of the **Ferrari 1202 T2®** textiles merely involves a wash with water and a mild detergent. There is no mould, rotting or discolouration caused by moisture.

Fungistatic treatment

10 Year Warranty - backed by one of the leading manufactures in the world.

Back-up and support from trained and experienced local suppliers.
