Custom made Roof for external application

Case Study

This client required a custom designed roof for their theatre to complement the unique shape. In keeping with the theatre's open and light feel, the roof structure needed to do the same.

Fabric : **Ferrari 702S®**

Fabricator : Cape Shade

Solution : **Ferrari 702S®** blind material

Ferrari 702 S® translucent was chosen for the job as it is able to create a bright yet shady area where the audience can sit in cool comfort. The roof structure is tensioned using stainless steel fittings and braided steel cables and the design is extended beyond the walls to provide additional covering over the walk ways leading to the entrances. The overall theatre design is unique and very creative which is ideal when being used for creative purposes. Fire retardant, easy to clean and with a 7 year warranty, the material offers the perfect solution for this application.

Anti-capillarity treatment

Anti-Capillarity Treatment

The construction of the polyester fibres prevent moisture and dirt from running through the inner layers of the material. This ensures the clear transparency of the material so that dark patches do not form overtime

Won't sag

Tear resistance

Ultra Stable & Tear resistant

Ferrari 702S® is a textile designed according to an exclusive and patented process which ensures that the textile will not lose its shape or its inherent physical strength despite the tensions generated by wind, rain, hail or other climatic conditions. For this reason, **Ferrari 702S®** is preferred by architects and specifiers the world over for large exterior panels.

Precontraint

Manufactured using the exclusive patented Precontraint Ferrari technology, the **Ferrari 702S®** textiles are maintained under tension throughout the entire production cycle. The resulting level of dimensional stability is extremely high, meaning the textiles do not deform during installation or over time.

Fire Retardant

Fire retardant **Ferrari 702S®** is not inflammable and will only smoulder in the immediate presence of flames

Easy Maintenance

Thanks to its new S2 varnish, maintenance of the **Ferrari 702S®** textiles merely involves a wash with water and a mild detergent. There is no mould, rotting or discolouration caused by moisture.

Fungistatic treatment

7 Year Warranty - backed by one of the leading manufactures in the world.

Back-up and support from trained and experienced local suppliers.

synchron

Official supplier of **FERRARI** fabric
